

FINA IT 15/019 A

Rolling

Concentrate antioxidant solution ready-to use

APPLICATION

- Concentrate antioxidant solution to prepare aluminium rolling fluids.

PROPERTIES

- Fluid liquid product, easy-to use
- High concentration
- High antioxidant properties.
- Specially studied to stabilize all components of aluminium rolling fluid
- All components answer to **FDA 21 CFR § 178.3910** and **§ 178.3570** and so they **CAN COME INTO CONTACT WITH FOOD**

Typical Characteristics

Methods	Determinations		FINA IT 15/019 A
Visual	Aspect	--	Clear
ASTM D 1500I	Colour	--	L 0,5
ASTM D 4052	Density at 20°C	Kg/l	0,819
ASTM D 445	Viscosity at 20 cSt	cSt	2,8
ASTM D 92	Flash point P.M.	°C	83
IR	Active matter	%m	20

Above characteristics are mean values given as an information.
