

MARTOL FMO 12Y15

Cold drawing

Synthetic evaporable fluids particularly suitable to draw aluminium food containers with "difficult" forms.

DESCRIPTION

- Special evaporable drawing product formulated with natural active matter non-oxidable and volatile base.

APPLICATIONS

MARTOL FMO 12Y15 is formulated due to his properties:

- good evaporation time of solvent base.
- very low smell of solvent base.
- the active matter is non-oxidable and no bad smell will occur for a long time of storage.
- the active matter has got a very high lubricating property in drawing
- Active matter has remarkable antitacky properties: for such reason it is easy the ejection of the piece, also with difficult shapes.
- The components are in accordance with the alimentary rule of Kasherut and so the products are **Kasher certified**: the food container obtained with the products can get the mark

or

- The components are in accordance with the Muslim alimentary rule (**without Haram components**) and so the products are **Halal** level
Martol FMO 12Y15 fulfill to the Italian law- Decree n. 76- 4/18/2007 " Regulation regarding the hygienic rule of materials and objects made in aluminium and aluminium alloys destined to be in contact with food "

SPECIFICATION

- FDA 21 CFR § 170.30

Typical Characteristics

Method	Determinations		MARTOL FMO 12Y15
Visual	Appearance	--	clear
Visual	Color	--	colorless
ASTM D-4052	Density at 20°C	kg/l	0,779
ASTM D-445	Viscosity at 40°C	cSt	1,55
ASTM D-92	Flash point C.O.C.	°C	70

Above characteristics are mean values given as an information.
