

FINATUROL P

TOTAL

TECHNOLOGICAL FOOD AUXILIARY

DESCRIPTION

- **Food demoulding oil** formulated with non oxidable natural fatty matters.

SPECIFICATIONS

- **FDA 21 CFR § 170.30** («*Eligibility for classification as generally recognized as safe*»).
- **OGM free** and without substances of animal origin (**BSE free**)
- The product, for its composition, is reported in the European Pharmacopoeia (2001, 0868) and in Farmacopea ufficiale italiana (0868).
For its composition it is equalized as a “vegetable oil” and so not declared in the label

APPLICATIONS

FINATUROL P are expressly formulated because:

- the active matter is non oxidable and so not giving bad smell also for long periods of air exposure, in warm place and in presence of high quantity of humidity. So it is recommended as detaching and demoulding product in the food industries as dough and paste in which the two phenomena are summed
- the active matter it isn't hydrocarbon base and so **allowed to the intentional food contact**
- the product, due to its high polarity, permits an high reduction of the consumption compared to the products white oil base, **not admitted for intentional food contact**

Typical Characteristics

Test methods	Determinations		FINATUROL P
Visual	Aspect	--	clear
Visual	Colour	--	Staw -coloured
---o	Smell	--	Practically odourless
ASTM D-4052	Density at 20°C	kg/l	0,950
ASTM D-445	Viscosity at 40°C	cSt	16
ASTM D-93	Flash point C.O.C.	°C	240
ASTM D-97	Pour point	°C	<-12

Above characteristics are mean values given as an information.
