

TOTAL DOS

PLASTICIZER

NATURE

- **TOTAL DOS** is dioctyl sebacate of special purity obtained from high temperature sophisticated esterification process. This process enables to obtain a product with exceptional quality and stability.

APPLICATIONS

- Plasticizer for:
 - ethylcellulose
 - polymethacrylate
 - polystyrene
 - polyvinyl chloride
 - copolymer PVC-PVA
- demoulding agent for aluminium sheet to paint

TYPICAL CHARACTERISTICS	TEST METHODS	UNITS	TOTAL DOS
Appearance	Visual	--	Limpid
Colour	Visual	--	Light colour
Density at 20 °C	ASTM D 4052	kg/l	0,916
Rifraction index at 20°C	ASTM D 1298	--	1,447
Boiling range	--	°C	232-246 (4 mm Hg)
Flash point – COC	ASTM D 92	°C	240
Pour Point	ASTM D 97	°C	- 45

Above characteristics are mean values given as an information.
